The platypus is a mammal, but a very unusual one. Or did they give birth to live young, as mammals do?

In this chapter, I will explore some episodes of science on the frontier, which

From birth to sudden death, teenage gangs to aged

grandparents, all are cogs in the wheel of life that exists in

'the colony'. It was first thought a clever hoax had been

perpetrated by a skilled taxidermist stitching together the

bill of a duck and other parts of unknown mammals! Goodreads

helps you keep track of books you want to read.

Travel to four very special places in the world, guided by the voices of the people

37, Papers of George Bennett.
