Mill also held that natural features of human psychology, such as conscience and a sense of justice, underwrite motivation. So it seems to be a hybrid, total-average view. Price, Richard, [PE].

Actions are significant as evidence of character, but only have this derivative value. First, it is a relatively simple ethical system to apply. Reason rather than revelation was sufficient to determine morality.

Logic rather than an adherence to biblical principles guides the ethical decisions. is Bishop Spong?
