His award winning *The Terminal Experiment* confirmed his place as a major international science-fiction writer. It raised some interesting questions about the idea of passing on one's identity.

If you get a robot created with your memories and then retire to the moon to die, This book won the Aurora Award for the best Canadian science-fiction novel in English. His writing has certainly changed over the years, but this was a refreshing and exciting set of stories, even if I'd read some of them in other places. Jul28, Heath rated it liked it. It is not too much to expect that SF writers scribble a nice collection.
