Bicycle Advocacy and Urban Planning. Population growth has been exponentiated, cities have become the primary place of residence, and the majority of the world is now out of touch with the workings of nature. The presence of both the cold deserts in Ladakh and hot deserts in Rajasthan is unique to the country.

Often it is merely the perception of these things itself which gives us pleasure. These advancements allowed for more permanent settlements, which led to rapid population growth and a distancing from nature. Forests are cut down for the profits of the lumber industry and to make room for livestock.

Willhoit and begin your own journey through the terrain of writing and nature. recognition of these effects suggests that our role in nature is far more influential than it should be. So that which is the basis of truth in nature and provides it with intrinsic value is also that which makes it beautiful.
