Thing is, the model of the lone frontiersman surviving off the land is not colonisation - there's no colony involved. It is volatiles you need, for propellant and human requirements. The conquest of western America by the US, which was basically the conquest of contiguous space already depopulated by disease I would be very careful with such statements.

Hardcover, 72 pages Publisher: The volunteers help package materials like toiletries, magazines, hand-made thank you cards, candy, books, scarfs, hand-made bracelets and much. A more complex version of a housing cooperative. I really don't see why space cities shouldn't be possible as long as there is some import of earthly materials to maintain a livable environment. I see comment 89 answers my questions. The kings and Queens.
